
Toni L. Meier

**Director, Logistics Management Integration
Department
Naval Air Systems Command**

Ms. Meier is currently the Director, Logistics Management Integration Department. As the Director she is responsible for life cycle integrated logistics support of 3,900 Naval Aviation aircraft and weapons programs. She manages a geographically dispersed department of approximately 1,300 people with an operating budget of \$100M and directly influencing program logistics acquisition budgets of \$1.3B

Ms. Meier has 31 years of civilian service and entered the Senior Executive Service in December of 2011.

Ms. Meier served as the Naval Aviation Readiness and Resource Analysis Department Technical Director from August 2006 to December 2011. She was responsible for Department strategic planning and overseeing a workforce of 1,100 logisticians, information technology specialists, and readiness analysts providing logistics support to Naval aviation weapon systems. She was responsible for budgeting and execution of the \$2.B annual budget. Ms. Meier led the Department in the implementation of the Naval Aviation standardized Automated Logistics Environment (ALE) which will reduce acquisition and sustainment costs for logistics information technology.

In December 2001 Ms. Meier was selected as the Assistant Program Executive Officer, Tactical Aircraft, Logistics. In this position, she served as the principal logistics counsel to Program Executive Officer, Tactical Aircraft Programs. She was responsible for overseeing the efforts of 500 logisticians providing support to 3,000 fielded aircraft and logistics acquisition management to approximately 35 acquisition programs.

Over the last 30 years Ms. Meier has served as the Assistant Program Manager, Logistics for the E-6A, P-3 Update IV, P-7A, C-9, C-40, the AIR 1.0 Aircraft (which included fourteen type/model/series and 1,337 aircraft), Product Support Team Leader for the P-3 and H-60 Director of Logistics. In these positions she directed the development and implementation of cost effective support strategies, led the teams through major acquisition milestones, and developed and implemented processes for improving readiness and reducing total ownership costs.

Ms. Meier earned an associate degree in marketing management from Sinclair Community College in 1979 and a bachelor's degree in business administration in 1988. She is a graduate of

the Defense Systems Management College Program Managers Course, Naval Air Systems Command Senior Executive Management Development Program, Federal Executive Institute, Leadership for a Democratic Society and Public Sector Leadership: Values, Vision and Vital Strategies courses and the Navy Corporate Business Class.
